

Job Openings

in the Science Field

The Department of Fish and Game has two openings for **Fish and Wildlife Scientific Aids** at the Stockton office. We are seeking motivated individuals to assist with fish-related work in and around the Sacramento-San Joaquin Delta and San Francisco Estuary. The positions may include, but are not limited to: assisting with adult and juvenile delta smelt mark-recapture experiments at the State Water Project facilities, collecting and tagging adult striped bass, recording field data, and sorting and analyzing samples in the lab.

Minimum qualifications: Possession of a valid California Driver's License and either: (1) equivalent to completion of two years of college with a minimum of 10 semester hours in biological or chemical sciences (2) one year experience in surveying, studying, or evaluating fish or wildlife data population data, habitat evaluations, or working in a chemistry lab.

Additional desirable qualifications: College work in ichthyology, fisheries, water quality or zoology. Familiarity with fish collection and identification. Willingness to work irregular hours (including weekends). Ability to lift up to 40lbs and must work well with others.

Pay: \$11.58-13.34/ hour

Final Filing Date: Open until filled

Duration: Up to 9 months

How to apply - submit a completed California State Application (STD. 678) and 3 work related references to:
